OTHER PARTS - CALL CUSTOMER SERVICE

Battery Brand: Vinnic LT1154
Battery Type: 357, LR44 Alkaline 1.5V(2)
Lamp Life: 10,000 hours
Battery Burn Time: 130 hours
Lamp Type: LED

PRODUCT SPECIFICATIONS

Check closely for cuts, scratches, or otherwise damaged O-ring or mating lens lip surface. Remove any dirt or foreign matter from O-ring sealing surfaces. Keep threads O-ring groove and inside lip of lens lubricated with silicone grease. See Warranty information for replacement of O-ring.
LED LAMP REPLACEMENT:
 The LED lamp offers many thousands of hours of use (but cannot be replaced). However, the battery tray and LED are covered by the Pelican Products Unconditional Guarantee. If you experience any problems with your Mini Flasher, please see the warranty instructions below.

O-RING MAINTENANCE

Check closely for cuts, scratches, or otherwise damaged O-ring or mating lens lip surface. Remove any dirt or foreign matter from O-ring sealing surfaces. Keep threads O-ring groove and inside lip of lens lubricated with silicone grease. See Warranty information for replacement of O-ring.

WARRANTY RETURN POLICY

Send all items for repair or replacement directly to Pelican Products Customer Service Department (Postage Paid). Please call for authorization number.

Per our guarantee, Pelican Products will replace or repair any broken or defective products. Upon receipt of goods, Pelican Products will notify you of any handling and return postage charges.

Pelican Unconditional Lifetime Guarantee of Excellence

If for any reason you are not satisfied with the quality or performance of any PELICAN product, we will gladly replace the product or refund your money (at your option) within 30 days of purchase through the original retailer/dealer. PELICAN PRODUCTS will continue to guarantee the product directly for a lifetime against breakage or defects in workmanship. Lifetime guarantee does not cover the lamp or batteries. The o-rings must be kept greased (and replaced if damaged) per product instructions. This guarantee is void only if the PELICAN product has been abused beyond normal and sensible wear and tear.

THE ABOVE GUARANTEE DOES NOT COVER SHARKBITE, BEAR ATTACK OR CHILDREN UNDER 5.

BATTERY REPLACEMENT:
 The Mini Flasher uses two 1.5 volt type 357 coin cells in either alkaline, silver oxide or lithium format. The batteries are available wherever watch or calculator batteries are sold. To replace batteries remove the lens by rotating counter-clockwise, lift out the battery tray, remove the two coin cells, install the fresh cells (negative end nearest LED), and replace the battery tray and lens.

TO TURN OFF:
 Rotate the lens counter-clockwise until the LED lamp ceases to flash. Continue to rotate the lens one turn to prevent accidental turn-on.

TO TURN ON:
 Rotate the lens clockwise until the LED lights. Do not continue to rotate the lens once the Mini Flasher has turned on, as damage may occur to the product.

INSTRUCTIONS:
 Your Mini Flasher has been designed to provide a high-intensity flashing light for up to 130 hours of continuous use. The Mini Flasher uses a Light Emitting Diode (LED) to create a short pulse of light 120 times per minute. This product is waterproof to a depth of 500 feet.
